## Webinar Archive

### The Transatlantic Trade in Wood for Energy

Slides and audio from today's webinar are now available on the Pinchot Institute website. [Download the presentations here](#) or visit the website to view the recording and all of the briefing materials and presentations from the Savannah workshop: [pinchot.org/pellets](http://pinchot.org/pellets)

The Pinchot Institute recently brought together more than 60 participants including representatives of US pellet producers, European purchasers, U.S., Canadian, and European policymakers, and conservation organizations met over two days to analyze and debate complex sustainability issues related to the growing trade in wood pellets between the U.S. and Europe.

Organized by the Pinchot Institute for Conservation and the International Energy Agency (IEA) Bioenergy Tasks 40 and 43, the Savannah workshop explored the potential application of sustainability criteria being developed by European governments and industry.

*The Transatlantic Trade in Wood for Energy: A Dialogue on Sustainability Standards and Greenhouse Gas Emissions* [Download report PDF [here](#)] summarizes the major themes and conclusions emerging from the dialogue.

2 March 2014
