

26 May 2018

SENT TO LSU AGCENTER/LOUISIANA FOREST PRODUCTS DEVELOPMENT CENTER - FOREST SECTOR / FORESTY PRODUCTS INTEREST GROUP

Here is a nifty website from our friends at Mississippi State University.

<http://windwoodutilization.org/>

Wind Wood Utilization

Wind Wood Utilization is the hub for information specifically relating to the preparation for, response to, recovery from major wind events and the utilization of **downed & damaged timber** and **woody debris** that can be generated.
